

PowerSoftMD Enhancements 2010

12-31-2010

783 Message Center Improvements:

- You may give each Message a Note Title using the New Drop Down Arrow field. Setup the Drop Down Arrow List of items by using the top Tools option, then Edit Pop Up Lists, then Edit Note Titles.
- The Message Center Window can be resized, including Minimized and Maximized.
- You can set up special Message Center Mail Boxes that anyone can use, just like the Common and Common2 mail boxes. For example you could call one "Labs". Follow these steps to create the special Mail Boxes. A. Create a new PowerSoft UserID with the Name of the Mail box you want.
 - B. Make the New User's ID the special word NONE
 - C. Login to PowerSoftMD using the New User's ID and the password NONE.
 - D. Open the Message Center Window.

12-30-2010

782 The EMR SOAP Note "Consent" window automatically uses the Template Name as part of the stored Consent form name.

781 The FaxView option from the Primary Menu lists the Faxes in reverse order, which if you have your document names starting with yyyyymmdd (date format) the most recent ones are listed first.

12-29-2010

780 The EMR SOAP Note "DocNote" window has many new options.

- You can control the Folder name in the Drop Down Folder Name list by using "Tools" then "Folder Names Drop Down List".
- You can use special new &image1, 2, & 3 macros within Template to automatically insert photos & size them.
- New "Sel Image" button lets you select photos for &image macros. - Use Tools then "Convert to HTML File" to generate files with embedded photos from the &image macros.

12-26-2010

779 The User Defined Fields screen, "Pop Up" list items can contain a subset of the

EMR Macros, just not the Patient Demographic related ones.

12-24-2010

778 The Check In/Check Out screen has a new option you can check on the Room selection Window "Expanded View" that will let you select the Room by Title and/or Room Number.

777 The Check In/Check Out screen allows you to give each Room a Title by using to Top Tools "Setup Room Color and Titles" option. In addition, the display automatically color codes more items.

12-23-2010

776 The Backup Primary Menu option, now has a "Restore" for the Magenta back up to external Hard Drive option. You would need to use caution with working

PowerSoftMD Enhancements 2010

with any "Restore" function. Be sure and contact Data Tec if you aren't exactly sure about what you are doing, before any "Restore" operation.

12-20-2010

775 The Check In/Check Out Tracking screen has been greatly improved.

Access this screen from the Drop Down Arrow on the Primary Menu next to the Scheduling Icon, or from the Schedule using the top toolbar "Tools" option, then "Check In/Check Out".

- There is a description field for the Long Term Recall
- You can use "Pop Up List" buttons to select from a list of user defined Recall Reason Codes and Descriptions.

10-08-2010

743 On the EMR SOAP Notes screen the Tobacco and Alcohol quick check boxes on the left have been improved to provide a Yes or No Check box option. You can still use the "Soc/Fam History" button to be more specific.

742 The Patient Reminder Window has a new "Pop Up List" button you can use to select from a list of common reminder comments. When you first use the button it will tell you how to create and/or edit your customized list of comments.

741 You can view and/or update the Patient Reminder Window from the EMR Documents screen by using the top toolbar "Window" then "Patient Reminder".

10-07-2010

740 The Message Center now automatically displays the Patient's Next Scheduled Appointment, if one exists.

10-06-2010

739 On the Monthly Report options there is a new Referral Analysis 3b, which will list the referring doctors in order by the number of referrals instead of alphabetically.

10-05-2010

738 From the Patient's General screen under the top "Print" option there is a new "Label - Referring Doc" option. This lets you easily print a Dymo type label for the referring doctor you have listed in the Referring Doctor field.

737 There is a new EMR SOAP Note report that Visits and Visit Statistics. From the EMR Desktop, select the top Reports option, then Report #8.

10-04-2010

736 There is a new option on the Forms Menu "Re-Send Duplicate" that can be used to Re-Generate Electronic Claims that were previously submitted, in the identical image of the original claim. After generating the claims you can sent the file to your clearing house again.

735 The Message Center has been enhanced:

PowerSoftMD Enhancements 2010

- If a patient has any SOAP Notes, the date of the last SOAP Note is automatically displayed under their Account Number.
- There is a new top toolbar option "ImmNote" to allow you to create an "Immediate Note". You can still use the "Tools" option as well.

- If a patient has any file in their Documents Folder a Green button is displayed under their Account Number. If you click the button the Mini Documents Folder screen will be displayed. You can still display the Mini Documents Folder screen by using the "Patient Info" button.

10-02-2010

734 You can update the Immediate Notes Window from the EMR SOAP Note and Profile screens by using the top toolbar Window option, then Immediate Notes.

733 The Immediate Window has a new Pop Up list feature allowing you to create and select from a list of common comments.

732 The Recall function from the top of patient screens has a new Year drop down option, in addition to the month selections.

731 On the Ledger display doctors numbers are color coded to match the color code displayed on the General screen for different doctor number values.

09-29-2010

730 Scheduling has a new Telephone List "Format 12" which is similar to "Format 11", but also lists the Account and Patient's Balance if they are non zero.

729 The "Held Payments" window cannot be closed without saving information or intentionally clicking the "Cancel" button and then answering Yes to the Cancel Prompt.

09-26-2010

728 When creating pop up lists, short cuts, or templates you can use the new user defined fields as macros. The macros will be prefixed with "&u-". For example: a user defined field called "cosmetic" could be used to fill in information in a short cut, by &u-cosmetic

727 From SOAP Notes you can use the top Window toolbar option to select "User Defined Fields", the same as from the General screen.

726 From SOAP Notes when using the Green "DocNote" button you have 2 new buttons, "Short Cuts" and "Insert Image". "Short Cuts" lets you define and use short cut paragraphs, optionally including macros. "Insert Image" lets you select and insert images from the patients' images folder.

09-25-2010

725 On SOAP Notes you can define default text you would like inserted for each "Normal" button you click on the "Exam" area. From the top Tools option, select "Edit Pop Up Tables & Control Lists", then "Edit Exam Button Normal Value Text".

PowerSoftMD Enhancements 2010

09-23-2010

PowerSoftMD Enhancements 2010

08-24-2010

715 There is a new feature to list patient address and demographic history, including address changes based on information stored on patient SOAP visit records. From the General screen, select the top Window option, "Address History - EMR". Note then

714 You may now enter up to 4 modifiers per CHG Code. This new option requires the transaction file to automatically be upgraded the first time you Login to PowerSoftMD after installing the enhancements. This upgrade can take several minutes, but is a onetime process.

08-22-2010

713 If you appoint a patient by Account Number, if they have an Immediate Note it will automatically pop up.

08-20-2010

712 When you click on a name entry on the Schedule if an Immediate Note exists for the patient it will automatically pop up. As before, when you schedule a patient using the binoculars screen, any Immediate Note automatically still pops up.

711 The Schedule "Log Report" has a new option to search by Account Number.

08-18-2010

710 When you Move or Copy an appointment, the new appointment information is automatically placed in the Appointment Log.

08-17-2010

709 When printing walk-out Receipts you may now specify a range of dates of service to print.

08-15-2010

708 Both Paper and Electronic claims support up to 99 different Doctor Names and ID Numbers. From the Utility Menu, select the Company Name option, then select the top "Tools" option to set up extra doctors.

08-11-2010

707 You can create a list of comments to be placed into field 19 on the HCFA 1500 claim form based on CHG Codes listed on the Claim. From the Utility Menu select the CHG/HCFA option. Fill in the desired CHG Codes to match and the comment you want in the field labeled Box 19.

706 The Inventory program report lists items in Alphabetic sequence instead in numerical order.

705 If you want to reverse Confirming, Checking In, or Checking Out a patient on the schedule, simply repeat the process. For example if you "Confirm" the wrong patient, simply click on their name entry and select "Confirm" again and you will be prompted to "Un-Confirm" the entry.

08-10-2010

PowerSoftMD Enhancements 2010

704 On the new Flow Sheet EMR window you can click on the account number field to switch patients by account number.

703 If you bring up an existing note in the Message Center, if the patient is currently a collections account, the "Collections" label will appear and flash.

702 When you create a new message in the Message Center if the patient is in collections the phrase "***Collection Account***" will automatically be inserted as the beginning of the note. Also the "Collections" label will appear and flash.

701 You may open the new Flow Sheet window from the EMR Profile, Document, and SOAP Note screens.

08-09-2010

700 When running the Speed Test option from the Primary Menu top Tools option, no now will the speed test estimate the in-office network speed, but it will also display the total seconds used for a bench mark.

08-02-1020

07-28-2010

698 You may display the new Flow Sheet EMR window by using the drop down arrow to the right of the EMR Icon on the Primary Menu, or from the new Flow Sheet Icon on top of the EMR screens.

07-21-2010

697 When Scanning images or documents, there are new parameters for setting the left hand and top margins. Note, some scanners don't support these option.

07-19-2010

696 From the Primary Menu "EMR" Icon drop down arrow you can directly go to a patient's Journal Documents folder.

07-11-2010

695 The SOAP Note Diction overlay screen

- Allergies are automatically displayed on this window
- There is a new "Legacy Meds" button you can use to display the Legacy Meds list.
- On the Top Toolbar there are direct links to Journal Files, Mini Documents, and Mini Images.

694 The SOAP Note screen has a new option allowing you to easily enter medications even if you are a beginner. From the top toolbar on the SOAP Notes screen select "Tools", then "Options Setup". Check the "Prescription Beaker Icon - Free Format Meds". Then on open SOAP Notes you can click the top Prescription Beaker (Script) Icon and enter medications that will be formatted and inserted into the Assessment and Plan Window. Once you bring up this Free Format Meds Window you will notice a "Help Video" option, we recommend watching the short 3 minute video.

07-09-2010

PowerSoftMD Enhancements 2010

693 Message Center Notes has been improved.

- There is a new button "Date Time Stamp" that quickly inserts a Date, Time, UserID, line on the bottom of the note text window, allowing you to keep a better history of the note as it is processed.

- You can use the Tools Password option from the Define UserID's screen to set up a password for allowing the updating or not, of stored message center notes.

07-08-2010

692 In the EMR, when updating the Allergies list for a patient, the pop up allergy selection list has been enhanced with an alpha selection grid.

691 The Patient Search by Criteria report has a new field of criteria, the "Last Recall Sent" date.

07-05-2010

690 There is a new EMR Report screen that allows you to review EMR Journal Documents over any date range. From the EMR Desktop select the top toolbar Reports option, then Report Number 7.

07-04-2010

689 The SOAP Note Voice Dictation Overlay ("Dragon" Interface), command buttons work if you are using a Remote Desktop Connection, Terminal Services, and or local network connection.
