

PowerSoftMD Enhancements 2014

12-07-2014

0040 The Recall Update Window from the Patient Screens has a new top toolbar option, "Clear All Fields".

0039 There is a new EMR Report that will list the count of the number of unique diagnosis codes for patients over any visit date range. This information is based on the Patient's "Problem" window contents from the SOAP Note screen.

This is Report # 21 from the EMR Reports Menu, labeled: "EMR Problem/Diagnosis Counts".

11-27-2014

0038 There is a new option on the Time Clock Report you can select called "Show Daily Totals". If you select this option the total hours for each day will be displayed to the right. Here is an example:

Date	TimeIn	TimeOut	Hours	Type
Mon 11/03/2014	8:30am	1:20pm	4.83	Reg
11/03/2014	2:25pm	4:57pm	2.53	Reg
				Day Total= 7.36

10-02-2014

0037 On the screen to submit Electronic Insurance Claims you can optionally supply The Doctor number for the claims to be processed. If you do this then only Claims with just that Doctor Number on the charges will be processed. It will Automatically remove the patient account numbers from the screen for the ones matched. Typically this would NOT BE used, if you believe you have a reason for doing this, please give us a call to discuss it.

10-01-2014

0036 There is a new Posting Option you can set to be warned if your Windows UserID does not match your PowerSoftMD UserID. This is useful for RDP (Remote Desktop) or Cloud systems.

0035 The Primary Menu displays the Windows UserID along with the PowerSoftMD UserID.

09-29-2014

0034 On the Message Center there is a new Education button you can use to track Educational Materials given to patients outside of office visits. This is used for Meaningful Use Calculations.

09-14-2014

0033 There is a new option you can set for Patient Names that are submitted on Electronic claims. The option is called "Use Comma to Separate Name".

If you turn this option you will have to inform your Clearing house and have Them set up a new rule or edit telling them that in HCFA Image field #2 the Last Name and the First Name are separated by a comma. This would let them handle last names that are hyphenated or have a blank in them, easier.

07-31-2014

0032 There is a new Scheduling option you can set called "Activate Auto Prompt for Pat Appt". If this option is set then when you are on a patient's General Screen and switch to the schedule, if you click on an empty time slot you will Automatically be prompted asking if you wish to schedule that patient.

To set this option you would go to Scheduling, use the top toolbar "Utilities" Option, then "Utilities Option Menu", then "Set Scheduling Options". 07-13-2014

PowerSoftMD Enhancements 2014

0031 If you switch from the General Screen to the schedule, the Patient's Account will automatically be remembered. Then if you click on an empty spot on the Schedule you will be asked if you want to schedule that patient. Typically, we recommend that you generally start on the Schedule and do a patient search to appoint patients.

0030 From the Primary Menu there is a new top toolbar "Tools" option called "Display Time", which displays the computer Time and Date on the Primary Menu.

07-06-2014

0029 The Primary Menu Reminders screen will automatically word wrap reminders that won't fit on a single line.

05-08-2014

0028 The Patient Recall Report has a new option when exporting data you can check Called "Skip Pats with Appts". Checking this option will eliminate patients With future appointments from the export.

0027 The eSuperBill has a new Form Design option called "Form Design Use Notepad To Edit Template". Using the Note Pad mode you can easily insert new lines, Delete lines, or move lines around.

0026 The eSuperBill screen allows you to define your Modifier List with a description to make it easier when selecting Modifiers. For example: "25 Additional Eval"

03-28-2014

0025 The New CMS HCFA 1500 2012 Insurance Claims forms now prints darker, using Bold Font.

03-18-2014

0024 If an Insurance Carrier has been marked as using ICD-10 Codes, when it is the Primary Carrier for a Patient, it's name shows up on the patient screens with a Green Background, instead of Blue.

03-17-2014

0023 There is a new report available under Management Reports. The "CHG Code Analysis Statistics" button. Remember there are other CHG Code statistics reports available from the Monthly Reports Menu.

03-13-2014

0022 There is a new report available under Management Reports. The "Diagnosis Analysis Statistics" button. This report is an improvement over the Diagnosis Statistics option from the Monthly Reports Menu.

02-26-2014

0021 The Patient Recall Window has a new field where you can put in a text description for the Immediate Recall Flag.

02-25-2014

0020 The "Global Change Flags/Ins" option from the Advanced Utility Menu has a new option to change the Status Field (Drop Down Arrow) field on the General Screen.

PowerSoftMD Enhancements 2014

02-24-2014

0019 Patients by Criteria report has a new search for Immediate Recall being marked.

0018 The Electronic Export files names for Appointments and Recall have changed.

[RemindAppointments.csv](#) - CSV Appointment Reminder File for Common Interfaces

[RemindImmediateRecall.csv](#) - CSV Immediate Reminder File for Common Interfaces

[RemindMonthlyRecall.csv](#) - Recall Patient Report

0017 There is a new export feature from scheduling, top toolbar "Tools" then Export, then "CSV Immediate Reminder File for Common Interfaces".

02-23-2014

0016 The Patient Recall Report has a new option to create and Export CSV type file to be used by Reminder Services.

0015 On the Schedule when you click on a patient's name entry there is a new button called "Recall". It will display the Patient's "Recall" screen and let you see and/or update information, including the new "Immediate Recall" flag field.

0014 On the Patient's pop up "Recall" screen there is a new field called "Immediate Recall". It is a flag that can be used to indicate the patient needs to be contacted Immediately for another appointment.

0013 There is a new field on the General screen in the Recall Area called "Immed". It's a flag that can be used to indicate the patient needs to be contacted Immediately for another appointment.

02-16-2014

0012 When using the SOAP Note Global Search Report, you can click on the listed items to view them in a browse only mode.

0011 When using the Message Center View Window from a SOAP Note, there is a new top toolbar option "Search" you can use to find any string anywhere in the note. It will highlight the matching string(s) in the note in Red and underline them.

0010 When using the SOAP Note "View All" button there is a new top toolbar option "Search" you can use to find any string anywhere in the note. It will highlight the matching string(s) in the note in Red and underline them.

02-15-2014

0009 When using the large Magnifying Glass Icon on a SOAP Note screen to display the entire note, there is a new top toolbar option "Search" you can use to find any string anywhere in the note. It will highlight the matching string(s) in the note in Red and underline them.

02-02-2014

0008 There is a new field on the Charge Posting screen called "Supervisor". You can Enter the Doctor Number of the Supervising Provider, then on Insurance Claims their Name and NPI number will be filled in HCFA 1500 Field 17. The Name prefix of "DQ" for Supervising Provider will also be filled in. The Name and NPI numbers come from the "Company Name" file, accessible from the Utility Menu.

01-30-2014

PowerSoftMD Enhancements 2014

0007 You can print the latest version of the CMS 1500 HCFA insurance forms. Just select the new "HCFA 1500 2012 Version" option.

01-20-2014

0006 On the Insurance Detail screen you can indicate if the Date of Current Illness Field is for Pregnancy as "LMP" using the "LMP" check box. This will cause HCFA 1500 Claim to print 484 as the qualifier for field #14 instead of 431.

01-16-2014

0005 There is a new "Personal Calendar" available, each Login UserID has their own Calendar. You can open your Personal Calendar by using the Primary Menu "Calendar" button. There is a top toolbar "Help" option that will play a Short Internet Video that teaches you how to use it. The Calendar also functions as a Personal Reminder system.

01-14-2014

0004 You can easily determine what version of Windows you are using by pressing the F11 key on your keyboard, while on the Primary Menu. You can also do this by clicking the top "Tools" option on the "Login" screen, then selecting "Version".

01-02-2014

0003 The Management Graph reports now have an option to view a Line Graph in addition to the Bar Graph and Pie Chart. The report also automatically lists a table of the diagrams values.

0002 The Schedule Cancelation report has a new Search String field that can be used to zero in on any specific type of items.

0001 The Schedule Audit Scan Report displays Sub-Totals after each category listed.
