

# PowerSoftMD Enhancements 2016

---

## 12-21-2016

**0039** On the SOAP Note **eSuperBill** screen the units field has been expanded from **2** digits to **3** digits

## 12-18-2016

**0038** The Message Center now has 2 separate buttons to add new messages; **"AddPat"** to add a message for a new patient and **"AddOth"** to add a message for a non-patient. This eliminates an extra selection step. You will need to resize your Message Center screen and then use the "Tools" option **"Save Screen Size and Location"** to readjust where and how the screen is displayed.

**0037** There is a new Schedule export that can be used with the Klara Secure Patient Messaging Platform. From the Schedule screen select "Tools", "Export" and then "CSV Klara Message System". You can also find out more information from:

[www.powersoftmd.com/technote/KlaraExport.pdf](http://www.powersoftmd.com/technote/KlaraExport.pdf)

## 11-26-2016

**0036** There is a new option from the full screen Patient Add that lets you import basic patient Demographics from CSV files. Learn more at:

[www.powersoftmd.com/technote/ImportPatientDemographicsCSV.pdf](http://www.powersoftmd.com/technote/ImportPatientDemographicsCSV.pdf)

## 11-04-2016

**0035** There is a new Management Report called **"Credit Balance Line Item Research Report"**. This is available from the Management Reports Menu. This report can be ran over any range of dates reporting any ledger line items that have a credit total (overpayment).

### Notes:

- 1) Only Accounts where the overall Account Balance is Negative are considered.
- 2) If the Credit Account has no line items showing a credit total the account will be skipped. Therefore, the totals for this report will not necessarily match any other report, based on the correctness and completeness of your ledger postings.
- 3)

## 11-03-2016

**0034** When printing *Appointment Slips* there is a new option you can click called **"Print on Left Side of Paper Only"**. This can be used if you want to cut your 8 ½ by 11 inch paper sheets down the middle vertically, creating two 4 ¼ by 11 inches sheets to use in your printer. This way the patient can have a smaller piece of paper to take with them.

## 10-18-2016

**0033** New features on the Non-Browse type Schedule.

- The **Computers Time** is displayed in the top right side of the screen.

# PowerSoftMD Enhancements 2016

---

- There is a new button called “**Left Msg**” when you click on a Patients Appointment. This message indicates that you did not confirm the appointment, but you were able to leave a message for them.

## 09-27-2017

- 0032** There is a new Management Report Available, called “Accts Receivable Calculated”. The report will list daily accounts receivable for any date range, listing the total Debits, Credits, and Total Accounts Receivable for each day transactions were posted.

## 09-26-2017

- 0031** The Reports Menu, Credit Balance Report, has a new option to sort the report by “**Last Visit Date**”

## 08-29-2016

- 0030** There is a new Monthly Report available that will let you see statistics for paid charges That have been assigned to Categories. From the Monthly Reports Menu select the Check box labeled “**Paid Charges by Category**”. You will also have to place Categories on the CHG Codes in your base CHG Fee Schedule.

## 07-29-2016

- 0029** The Daily Schedule Cross Reference Report now list the **Schedule** and **Column Numbers** for any of the scheduled patients. This should indicate the Provider that was the Patient was scheduled to see.

## 07-28-2016

- 0028** The report “Patient Search by Criteria” has two new criteria:
  - **Collection Agency Flag**
  - **Referral Required Flag**

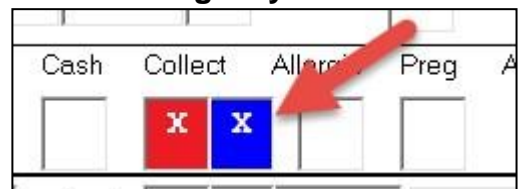

## 07-26-2016

- 0027** On the Daily Schedule Cross Reference Report you can set a new option to only list Patients that had nothing posting or where posted and Not Scheduled. Just select the new option “**Only No**”.

## 07-17-2016

- 0026** You can create an **Excel type CSV Export** file suitable for a **collection agency**.

- 1) Select the patients by checking the Collection Agency field on the patient’s **General screen**. It’s the **second field** under the “**Collect**” to the right. It will turn blue when checked.
- 2) From the **Forms Menu**, select the **Billing Statements** option and then select **#6** the “**Create Export File for Collection Agency**” option.

The screenshot shows a portion of the 'Patient General' screen. It features a table with columns labeled 'Cash', 'Collect', 'Allergy', and 'Preg'. Under the 'Collect' column, there are two checkboxes. The first checkbox is red and contains a white 'X'. The second checkbox is blue and also contains a white 'X'. A red arrow points to the blue checkbox, indicating it is the field to be checked for the collection agency export.

Cash	Collect	Allergy	Preg
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## PowerSoftMD Enhancements 2016

---

### 07-15-2016

**0025** There a new report on the **Monthly Reports** Menu you can run labeled “**Payment Details/Totals Report**”. This lets you report payment information for any

Range of **Posting Dates** also specifying any Range of **Dates of Service**. You also specify the specific **Types of Payments** you wish to listed.

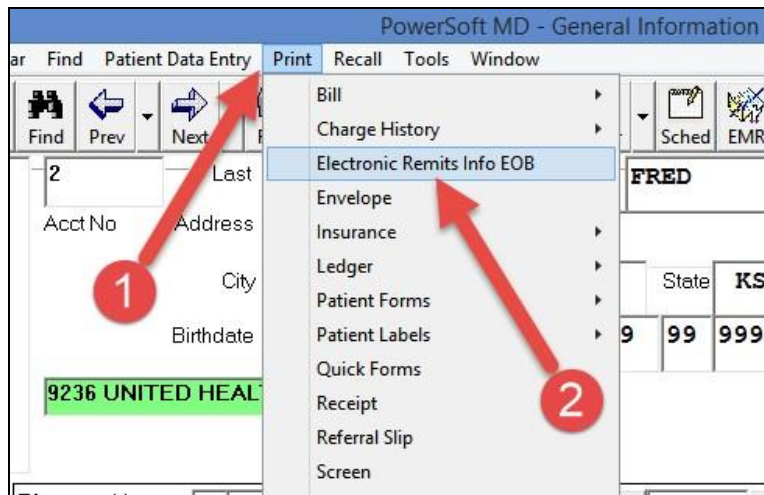

### 07-12-2016

**0024** The Schedule, Tools option, Export option, “**CSV Appointment Reminder File for Common Interfaces**” has a new column added to the export file, the appointments **Service Code**.

### 07-10-2016

**0023** There is a new report to display patients Electronic Remittance Information and/or print it. from the **General Screen** select the top toolbar “**Print**” option, then select “**Electronic Remits Info EOB**”. Once on the report screen select your **Date Range** and click the “**Run**” button.

**07-08-2016**

**0022** There is a new report from the Reports Menu, "**Imported Ins Remits**". This let you list summary and detail info regarding the Insurance Claim Electronic Remittance files you have imported. This may be used as a tool to cross reference your daily posting reports.

**07-01-2016**

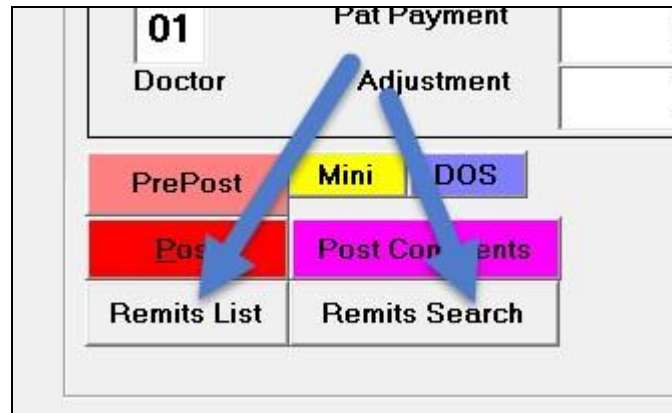

**0021** There is a new **Apex Sec** Forms Menu option for submitting **Apex EDI Secondary Claims**. It lets you submit claims to Apex EDI automatically switching the Primary and Secondary information on the claims. You will still need to use the Apex EDI screens to enter some details such as what the primary paid. You can also set your payment posting screen to prompt you to add the claims to Secondary screen when you post the Primary payment. Find complete details at: [www.powersoftmd.com/technote/ApexEDISecondaryClaims.pdf](http://www.powersoftmd.com/technote/ApexEDISecondaryClaims.pdf)

## PowerSoftMD Enhancements 2016

---

**0020** On the **Payment Posting** screen there are two new buttons to let you easily find Electronic Remits that you have imported.

- The **“Remits List”** button let you find and select patients you have import remits for.
- The **“Remits Search”** button lets you find all the remit files imported for the current patient.

**05-29-2016**

**0019** There is a new feature that lets you easily **encrypt files** creating a zip file suitable for emailing. From the Primary Menu select the **“Encrypt”** button. Once on the Encryption screen you can use the top toolbar **“Help Video”** option to learn how to use the Encryption feature.

**05-25-2016**

**0018** There is a new option you can activate on the General Information screen that allows you to specify a Residential Care or Nursing Home Facility with for a patient.

- 1) Use the **Utility Menu** and select the **“Facility (Residential Care)”** option and add the address of the Facilities. Note you will also need to add the NPI number associated with them in the field labeled **“NPI Box 32a”**.
- 2) On the General Information screen select the top toolbar **“Tools”** option and click **“Options”**, finally check the option called **“Display Facility Field to indicate where patient resides”**.
- 3) On the General Info screen click on the **“Facility Field”** (under the SSN Field) and select the patients residential facility.
- 4) If you use this option and post a place of service **“POS”** type of **13** then the Facility you selected will be filled in Box 32a on your HCFA 1500 Insurance claims.
- 5) If you use this option and post a place of service **“POS”** type **12** and provide a Facility the Facility will be used for Box 32a, otherwise the patient’s address will be used.

**05-11-2016**

**0018** The New Time Clock has a new button **“Group Time Entry”** that lets you add Holiday Times for several Employees at once or Vacation Days much easier.

**0017** The new Apex EDI Electronic Claims batch submit screen has a new button **“Skip List”**. You can use this button to specify specific carriers to temporarily not submit.

# PowerSoftMD Enhancements 2016

---

05-09-2016

**0016** There are 2 new features to make filling in the Electronic Payer-ID for Insurance Carriers much easier.

- On the Insurance Carrier Screen from the Utilities Menu, there is a new button called **"Payer-ID"** on the bottom right side of the screen. You can use this button to display the **Payer-ID Search and Update Window**. You can still fill in the Payer-ID field manually.

- From the Reports Menu, select Insurance Tracking, then select Insurance Carrier Payment Totals Analysis. When you run the report it will list a new column Payer-ID.

You can click on any Carrier listed on the report and display the **Payer-ID Search and Update Window**.

04-25-2016

**0015** When printing **Work Ticket Batches** if you printing them for a future date, the patient's age on the work ticket will be based on the appointment date, not the current date.

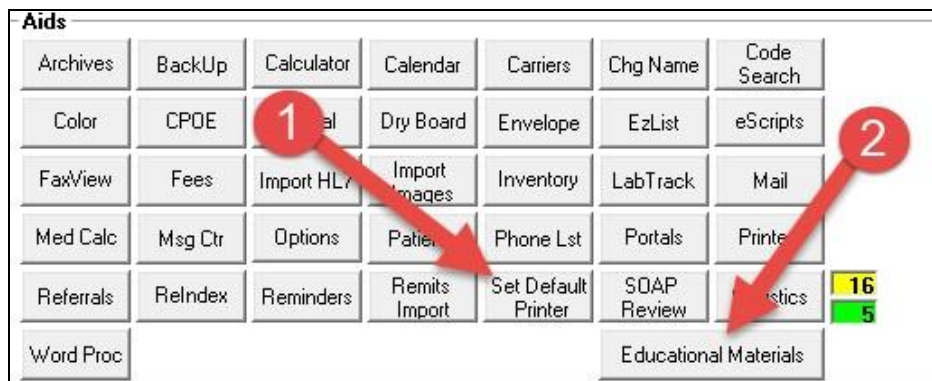

04-15-2016

**0014** When entering EMR Vital Signs, if a patient's **height** has been previously entered, it will automatically populate the **height fields** with the last values entered. Naturally, you can overwrite or clear the fields if needed.

04-12-2016

**0013** The *Primary Menu* has two new buttons:

- *Set Default Printer* used to easy see and set the Default Windows Printer
- *Educational Materials* used to access the Online Medline Plus Education website

04-11-2016

**0012** If you don't post charges to ledgers, but do use the EMR SOAP Note coding options there is a new report option you might like to try. The option can export a CSV file with PQRS type Information similar to the Forms Menu **"Export PQRS CSV File"** option. To use this new report option select **"EMR Reports"** from the Reports Menu, then select report #1, **"SOAP Note Procedures"**, check the new option called **"Export PQRS Info to File"**, and then run the report.

# PowerSoftMD Enhancements 2016

04-08-2016

**0011** There is a new “Primary Insurance Aging” report available from the Monthly Reports Menu. It shows aging by Carrier for Current, 30, 60, 90, and 120+ Days.

03-29-2016

**0010** The Billing History Reports from the Reports menu have a new option you can select, “Only Show Flagged Accounts”. This will limit the report to only showing patients that have been billed for the same amount the last 3 statements and haven’t made any payment. The report also shows patients that have never been billed, but have a patient balance.

03-29-2016

**0009** When posting Payments there are two new types of Insurance Payment posting options you can use; CC - Charge Card and XC - XCharge Card Payment. Both types will record as an insurance payment, with a special comment of “Charge Card”. This way they will be on the ledger as insurance payments but the daily bank deposit report can still total them as charge card payments.
