

SMOKING STATUS

(Core Objective #5)

OBJECTIVE: Record smoking status for patients 13 years old or older.

MEASURE: More than 80 percent of all unique patients 13 years old or older seen by the EP have smoking status recorded as structured data.

EXCLUSION: Any EP that neither sees nor admits any patients 13 years old or older

NUMERATOR: (Patients Credited)

Number of matching patients, with smoking status recorded.

DENOMINATOR: (Patients Considered)

Total number of unique patients 13 years old or older seen by the provider in the Reporting Period.

HOW TO:

- 1) From the pop up "MU Assistant" Window click the "Smoking" button.
- 2) Or from the SOAP Note screen click on the text box right below the "Soc/Fam History" button on the left side.
- 3) Or from the SOAP Note screen click the "Soc/Fam History" button, then click the "Update" button in the "Smoking Status" panel.
- 4) Or from the Profile screen click on the "Smoking Status" field.
