CLINICAL LAB-TEST RESULTS
(Core Objective #10)

OBJECTIVE: Incorporate clinical lab-test results into Certified EHR Technology (CEHRT) as structured data.

MEASURE: More than 55 percent of all clinical lab tests results ordered by the EP during the EHR reporting period whose results are either in a positive/negative or numerical format are incorporated in Certified EHR Technology as structured data.

EXCLUSION: Any EP who orders no lab tests where results are either in a positive/negative affirmation or numeric format during the EHR reporting period.

NUMERATOR: (Lab-Tests Credited)
Number of matching Lab-Tests where the results are recorded as structured data.

DENOMINATOR: (Lab-Tests Considered)
Total number of Lab-Tests ordered by the provider whose results are numeric or positive/negative.

HOW TO:
If you are receiving the Lab Results Electronically:
1) From the Primary Menu, click on the "Import HL7" button.
2) Select the "HL7" file Name.
3) View the Lab Result as an option.
4) Select the Date of Service and Import Folder.
5) Click the "Import HL7 Lab Results" button.

Or if you are scanning in or importing the Lab Results document (PDF).
1) From the Primary Menu, click on the "LabTrack: button.
2) On a lab request, click the date returned field and put the date of the return.
3) On the pop up, select import & import the HL7 results.

Or if you are using the Patient's Disease Registry.
1) From the Primary Menu use the EMR Drop down arrow and select "Disease Registry"
2) Select the Patient by Name.
3) On the Disease Registry, select the "Lab Results" tab.
4) Enter the results, then click the "Save/Exit" button.
